### **PART A – CONTRACTUAL TERMS**

THE NOTES DESCRIBED HEREIN HAVE NOT BEEN AND WILL NOT BE REGISTERED UNDER THE UNITED STATES SECURITIES ACT OF 1933, AS AMENDED (THE "SECURITIES ACT"), OR THE SECURITIES LAWS OF ANY STATE IN THE UNITED STATES, AND ARE SUBJECT TO U.S. TAX LAW REQUIREMENTS. THE NOTES DESCRIBED HEREIN MAY NOT BE OFFERED, SOLD OR DELIVERED AT ANY TIME, DIRECTLY OR INDIRECTLY, WITHIN THE UNITED STATES OR TO OR FOR THE ACCOUNT OR BENEFIT OF U.S. PERSONS (AS DEFINED IN EITHER REGULATION S UNDER THE SECURITIES ACT OR THE UNITED STATES INTERNAL REVENUE CODE OF 1986, AS AMENDED). SEE "SUBSCRIPTION AND SALE" AND "NO OWNERSHIP BY U.S. PERSONS" IN THE BASE PROSPECTUS DATED 12 JULY 2006. IN PURCHASING THE NOTES, PURCHASERS WILL BE DEEMED TO REPRESENT AND WARRANT THAT THEY ARE NEITHER LOCATED IN THE UNITED STATES NOR A U.S. PERSON AND THAT THEY ARE NOT PURCHASING FOR, OR FOR THE ACCOUNT OR BENEFIT OF, ANY SUCH PERSON. THE NOTES ARE NOT RATED.

This document constitutes Final Terms relating to the issue of Notes described herein. Terms used herein shall be deemed to be defined as such for the purposes of the Conditions (being the "Terms and Conditions of the English Law Notes issued by Morgan Stanley") set forth in the Base Prospectus dated 12 July 2006 which constitutes a base prospectus for the purposes of the Prospectus Directive (Directive 2003/71/EC) (the "**Prospectus Directive**"). This document must be read in conjunction with such Base Prospectus and the Base Prospectus Supplement dated 22 December 2006.

#### **Information Concerning Investment Risk**

The indicative Principal Amount of the Notes is up to EUR60,000,000 although the actual Principal Amount of the Notes to be issued will depend on the level of orders received during the Subscription Period that is scheduled to be the period from (and including) 2 April 2007 to (and including) 15 May 2007. The Final Principal Amount of Notes to be issued will be notified in Italy on behalf of the Issuer not later than 18 May 2007.

Noteholders and prospective purchasers of Notes should ensure that they understand the nature of the Notes and the extent of their exposure to risk and that they consider the suitability of the Notes as an investment in the light of their own circumstances and financial condition. The annual return on the Notes for the periods starting from 18 May 2008 until the Maturity Date will vary by reference to the performance of the Index and the Underlying Shares which comprise the Basket (as defined in paragraph 20). The performance of the Index and the Underlying Shares will therefore affect the nature and value of the investment return on the Notes. Noteholders and prospective purchasers of Notes should conduct their own investigations and, in deciding whether or not to purchase Notes, prospective purchasers should form their own views of the merits of an investment linked to the Index and the Underlying Shares based upon such investigations and not in reliance on any information given in these Final Terms.

Given the highly specialised nature of these Notes, the Issuer and Morgan Stanley & Co. International Limited ("MSIL") consider that they are only suitable for sophisticated investors who are able to determine for themselves the risk of an investment linked to the Index and to the Underlying Shares.

Consequently, if you are not an investor who falls within the description above you should not consider purchasing these Notes without taking detailed advice from a specialised professional adviser.

Potential investors are urged to consult with their legal, regulatory, investment, accounting, tax and other advisors with regard to any proposed or actual investment in the Notes and to review the Base Prospectus.

Please see the Base Prospectus together with these Final Terms for a full detailed description of the Notes and in particular, please review the Risk Factors associated with these Notes. Investing in the Notes entails certain risks including, but not limited to, the following:

*Adjustments by the Determination Agent:* The terms and conditions of the Notes will allow the Determination Agent to make adjustments or take any other appropriate action if circumstances occur where the Notes or any exchanges are affected by market disruption, adjustment events or circumstances affecting normal activities.

*Credit Risk:* The holder of the Notes will be exposed to the credit risk of the Issuer.

*Event Risk:* If an event occurs which in the opinion of the Determination Agent may have a diluting or concentrative effect on the value of an Underlying Share, the Determination Agent will have discretion to make changes to the terms of the Notes to account for any such effect; and such changes may affect the value of the Notes. If the Determination Agent determines that the event will not have a diluting or concentrative effect on the value of an Underlying Share, the Determination Agent will not adjust the terms of the Notes.

*Exit Risk:* The secondary market price of the Notes will depend on many factors, including the value and volatility of the Index and the Underlying Shares, interest rates, the dividend rate on the Underlying Shares and the stocks comprising the Index, the time remaining to maturity and the creditworthiness of the Issuer. Therefore the holder may receive an amount which may be less than the then intrinsic market value of the Notes and which may also be less than the amount the holder would have received had the holder held the Notes through to maturity.

*Hedging Risk:* On or after the Trade Date, the Issuer, through its affiliates or others, will likely hedge or have hedged its anticipated exposure under the Notes by taking positions in the Underlying Shares and the stocks comprising the Index, in option contracts on the Underlying Shares and the stocks comprising the Index, or positions in any other available securities or instruments. In addition, the Issuer and its affiliates trade the Underlying Shares and the stocks comprising the Index as part of their general businesses. Any of these activities could potentially affect the value of the Underlying Shares and the stocks comprising the Index, and accordingly, could affect the payout to holders of the Notes.

*Liquidity Risk:* The Notes will not be traded on an organised exchange. Any secondary market in the Notes made by the Dealer will be made on a reasonable efforts basis only and subject to market conditions, law, regulation and internal policy. The liquidity of the Notes reflects the liquidity of the Underlying Shares and even whilst there may be a secondary market in the Notes it may not be liquid enough to facilitate a sale by the holder.

*No Shareholder Rights:* A holder of Notes will have no beneficial interest in the Underlying Shares or the stocks comprising the Index nor any voting rights and will not have the right to receive dividends or other distributions with respect to the Underlying Shares or the stocks comprising the Index.

*Potential Conflict of Interest:* The Determination Agent (MSIL) is an affiliate of the Issuer and the economic interests of the Determination Agent may be adverse to the interests of holders of the Notes. Determinations made by the Determination Agent, including in the event of a Market Disruption Event or corporate event affecting the Underlying Shares or the Index or trading on the relevant exchange, may affect the amount payable to holders pursuant to the terms of the Notes.

***The Distribution Manager and the Distributors.*** Banca Monte dei Paschi di Siena S.p.A. and Banca Toscana S.p.A. (together, the “Distributors”) and MPS Finance Banca Mobiliare S.p.A. (the “Distribution Manager”) are affiliates of the MPS Banking Group. Furthermore, the Distribution Manager and the Distributors are in a conflicted situation as each will receive fees from the Issuer calculated as a percentage of the principal amount of Notes placed by each of them.

***Underlying Issuer Risk:*** None of the issuers of the Underlying Shares is an affiliate of the Issuer. The Issuer and the Determination Agent have no ability to control the actions of such issuers, including any rebalancing that could trigger an adjustment to the terms of the Notes by the Determination Agent.

***Underlying Sponsor Risk:*** The Index Sponsor is not an affiliate of the Issuer. The Issuer and the Determination Agent have no ability to control the actions of the Index Sponsor, including any rebalancing that could trigger an adjustment to the terms of the Notes by the Determination Agent.

***Other Considerations:*** The original issue price of the Notes includes the agent's commissions paid with respect to the Notes and the cost of hedging the Issuer's obligations under the Notes. The cost of hedging includes the projected profit that the Issuer's subsidiaries may realise in consideration for assuming the risks inherent in managing the hedging transactions. The subsidiaries through which the Issuer hedges its obligations under the Notes expect to make a profit. Since hedging the Issuer's obligations entails risk and may be influenced by market forces beyond the control of the Issuer or its subsidiaries, such hedging may result in a profit that is more or less than initially projected, or could result in a loss.

Assuming no change in market conditions or any other relevant factors, the price, if any, at which MSIL is willing to purchase Notes in secondary market transactions will likely be lower than the original issue price, since the original issue price includes, and secondary market prices are likely to exclude, commissions paid with respect to the Notes as well as the projected profit included in the cost of hedging the Issuer's obligations under the Notes. In addition, any such prices may differ from values determined by pricing models used by MSIL, as a result of dealer discounts, mark-ups or other transaction costs.

In purchasing any Notes, purchasers will be deemed to represent and undertake to the Issuer, the Dealer and each of their affiliates (i) that such purchaser understands the risks and potential consequences associated with the purchase of the Notes and (ii) that such purchaser has consulted with its own legal, regulatory, investment, accounting, tax and other advisers to the extent it believes is appropriate to assist it in understanding and evaluating the risks involved in, and the consequences of, purchasing the Notes.

35. Consolidation provisions: Not applicable
36. Other final terms: If the Determination Agent determines that a Nationalisation, an Insolvency or a Delisting has occurred in respect of any Underlying Share (the "**Affected Share**"), the Issuer shall as soon as practicable after the announcement of such Nationalisation, Insolvency or Delisting give not less than 5 Business Days' notice to the Noteholders to replace the Affected Share with a substitute Share (the "**Replacement Share**") so that the Basket consists of five Shares.

The Replacement Share shall be selected by the Determination Agent on the basis of the following criteria:

- (1) the Replacement Share shall not be a Share already included in the Basket;
- (2) no Nationalisation, Insolvency or Delisting shall exist in respect of the Replacement Share at the time of the substitution;
- (3) the Replacement Share shall be listed and traded on an exchange, quotation system or market whose size and liquidity relative to the Replacement Share is comparable to the size and liquidity of the original Exchange relative to the Affected Share;
- (4) the Replacement Share shall be issued by a company incorporated in the same jurisdiction or geographical area as the issuer of the Affected Share;

If application of the criteria set out in (1) to (5) above results in the identification of more than one potential Replacement Share, the Determination Agent shall on the relevant

date (the "**Selection Date**") select as the Replacement Share the share which has the highest Performance in the 12 months immediately prior to the Selection Date. "Performance" in relation to any share shall be calculated using the following formula:

$$\text{Performance} = (\text{Share}_i / \text{Share}_{i-12}) - 1$$

where:

Share<sub>i</sub> is the Share Price of a share on the Selection Date; and

Share<sub>i-12</sub> is the Share Price of a share on the date 1 year prior to the Selection Date.

If the Determination Agent is prevented by internal policies or restrictions applicable from time to time from selecting the share which has the highest Performance, the share with the next highest Performance not subject to applicable internal policies or restrictions preventing it from being selected shall be selected as the Replacement Share.

In the event that no potential Replacement Shares are eligible to be selected due to applicable internal policies or restrictions of the Determination Agent, the Share Price of the Affected Share shall be deemed for all purposes thereafter to be the last available price of the Affected Share that appeared on the relevant Bloomberg page prior to the Nationalisation, Insolvency or Delisting, as the case may be.

The Determination Agent shall as soon as reasonably practicable under the circumstances notify the Issuer and the Fiscal Agent of the occurrence of a Nationalisation, Insolvency or Delisting.

## **PART B – OTHER INFORMATION**

### **1. LISTING**

- (i) Listing: It is intended that application will be made for admission of the Notes to listing on the Official List of the United Kingdom Financial Services Authority, the United Kingdom competent authority for the purposes of Directive 2003/71/EC and relevant implementing measures in the United Kingdom. No assurance can be given as to whether or not, or when, such application will be granted.

The proposed European Union Transparency Directive (the "**Directive**") may be implemented in a manner which could be burdensome for companies such as the Issuer. In particular, the Issuer may be required to prepare financial statements in accordance with accounting standards other than U.S. GAAP.

The Issuer is under no obligation to maintain the listing of the Notes, and prospective purchasers of Notes should be aware that, in circumstances where a listing of the Notes by the UK Listing Authority would require preparation of financial statements in accordance with standards other than U.S. GAAP, or in any other circumstances where the Directive is implemented in a manner that, in the opinion of the Issuer, is burdensome, the Notes may be de-listed. In such a case of de-listing, the Issuer may, but is not obliged to, seek an alternative listing for the Notes on a stock exchange outside the European Union.

However, if such an alternative listing is not available or is, in the opinion of the Issuer, burdensome, an alternative listing for the Notes may not be considered. Although no assurance is made as to the liquidity of the Notes as a result of listing by the UK Listing Authority, de-listing the Notes may have a material effect on a Noteholder's ability to resell the Notes in the secondary market.

- (ii) Admission to trading: Application will be made for the admission of the Notes to trading on the Gilt Edged and Fixed Interest Market of the London Stock Exchange plc.

### **2. INTERESTS OF NATURAL AND LEGAL PERSONS INVOLVED IN THE ISSUE**

Save as stated in the Base Prospectus, so far as the Issuer is aware, no person involved in the offer of the Notes has an interest material to the offer.

### **3. ESTIMATED TOTAL EXPENSES**

The Issuer will pay a management fee in an amount equal to 0.788% of the principal amount of the Notes to the Distribution Manager on the Issue Date. The Issuer will pay a selling fee in an amount equal to 3.152% of the principal amount of the Notes to the Distributors on the
